Questions owners ask

Who owns the domain, and who pays?

We open a Cloudflare account in your name, register the domain there and set up the site and SSL for free, so the site and the domain are 100% yours. A .com costs about 400 THB/year at Cloudflare's own price, paid by you.

Any monthly fee? Who owns the site?

Your site and domain live in a Cloudflare account in your own name. We set everything up; hosting is free, with no monthly fee.

How do I pay?

Pay by PromptPay or bank transfer. Like the draft? Pay 50% to start, the other 50% on launch day.

How long does it take?

The first-page draft takes 1 day. Once we have your photos and info: One-page 1–2 days · Business 3–5 days · Bilingual 5–7 days · Shop 5–7 days · System 10–14 days.

Can I edit the site myself?

Yes, choose one: Google Sheets 1,490 THB, an admin page 2,900 THB, or a free WordPress install (hosting about 800–1,500 THB/year, paid by you). Or we edit for you: 490 THB per edit after the first 30 days.

Can you set up our LINE OA?

Yes. Full LINE OA setup is 1,690 THB: rich menu, welcome message and auto-replies. Rich menu only: 890 THB.

Talk to us on LINE

Send us your business name and type.
We reply with a free first-page draft.
